English | Hindi

## Profile

Adaptable and accountable team player, driven to deliver the best in any situation. A passionate Backend Developer with proficiency in Java, Spring Boot, SQL, Data Structures, and Algorithms. Looking forward to utilizing my current skillset and experience of working on projects to create a mark in the software industry and achieve organizational goals.

## Projects

### AirTable Website-Clone
**Individual Project**

At its core, Airtable allows you to easily create a database that holds the information that matters for your work, then use it to power the visualizations, processes, and integrations that make up a custom application that's truly unique to you.

- 🐙 **GitHub Link.**
- 🔷 **Netlify Link.**
- **Duration:** 05 days.
- **Tech stack used:** HTML, CSS and JavaScript.
- **Features**: Fixed Navbar | Log-In | Sign-up | Profile | Solution Section | Price preview page | Different Screen Capability | Product Section | Authentication integrated with frontend.

### TimeCamp.com Website-Clone
**Collaborative project accomplished with a team of 4 Developers.**

TimeCamp is software that monitors the actions performed on the computer and helps employees better understand how they make use of their working time so that they can work more efficiently.

- 🐙 **GitHub Link.**
- 🔷 **Netlify Link.**
- **Duration:** 05 days.
- **Tech stack used:** HTML, CSS and JavaScript.
